1.0 INTRODUCTION

A Customer Service Charter (CSC) is a description of the business provided to customers, how it is delivered to these customers and what are the expected outcomes from customers' perspective. It is a set of standards or code of practice that sets out to the customer the standard of service to expect, what to do if something goes wrong, and how to make contact.

It can also be described as a framework of how businesses work with customers in terms of excellence, payment, response times and overall standards.

A Customer Service Charter is prepared as a document which is made public and must be accessible, widely circulated and displayed at strategic locations and public domains, at the spot or centres of the company's operations.

The Customer Service Charter is articulated as a document that conveys the under listed information to service takers:

- Information about Courteville Business Solutions (CBS)Plc

- What it does
- Rights and obligations of customers
- How to access its services
- To whom the charter is targeted
- Grievance Redress Mechanism and redress available in case of service failure.

Producing a service charter in CBS shows our commitment in delivering quality services to the Company's Customers.

2.0 PURPOSE

- The aim of a Customer Service Charter (CSC) is to provide a framework for processes, procedures and policies towards the achievement of CBS service goals.
- The CSC will provide a good framework to bring about required cultural change to achieve better customer orientation.
- The CSC should ensure that an effective and efficient customer service operates within the company.
- The CSC should provide direction for all CBS personnel in the appropriate treatment/handling of all kinds of service related issues both for internal and external customers.
- The CSC should help to avert losses and business disruptions that may occur as a result of poor customer service delivery.
- The CSC should help to inculcate best practices on customer service ethics within the organisation.

The CSC should continually serve as a quality improvement tool in accordance with ISO 9001:2015 standard.

7.0 LEGAL ISSUES

It should be noted that the Customer Service Charter is not intended to create any legal rights for customers.

To forestall the possibility of any members of the public attempting to rely on a service standard contained in a charter as a legally enforceable right, a legal phrase will be clearly stated in the Charter document stating that ***“service standards are not intended to create any new legal rights”***

CUSTOMER SERVICE STANDARDS:

The CSC initiative will cover the following specific service delivery categories;

- a. Information Management
- b. Communication Exchange
- c. Enquiries
- d. Service Etiquette
- e. Turnaround time
